

## Design/Communications tendering

The ECR Party is open to tender proposals for the design services as required by the European Conservatives and Reformists Party (ECR Party) covering the year 2020-2021.

We are a European political party and so need integrated communication which implies design services to help us with:

- Online platforms, those include our two websites, our news website: The Conservative, and our organisation's website: the ECRparty's website. Add to that our social media channels: Facebook, Twitter, YouTube and Instagram.

This entails quick and satisfactory work with our team to provide designs for campaigns, webinars, articles and more.

- Paper publications: we release a bi-monthly News Paper as well as reports, leaflets etc. (on hold due to distribution limitations, Covid-19)

This entails design and layout of the different publications after being fed the content.

- Multiple Events per year: We organise events in Europe mostly and irregularly outside of the EU, those differ in size and purpose (on hold to travel and group limitations, Covid-19).

This entails design of branding, online campaigns, promotional objects, photos, invitations etc.

If you are interested in competing for this contract, please kindly submit your proposal – including full pricing description, please include hourly rates as well as the estimated cost for the design of a 20 pages Newspaper, and the support for a 1 day event (please refer to previously mentioned work needed)– to [b.pogorel@ecrparty.eu](mailto:b.pogorel@ecrparty.eu)

We look forward to hearing from you.
